A Broken Jaw.
Charles Shugart, a harness maker, employed in a shop on Franklin street, had his left jaw broken and his eye blackened Sunday, but as yet the police have failed to locate the assailant. Shugart says he went into a saloon Sunday on the levee and got a glass of beer. There was a row about paying for the drink and Shugart was knocked down and kicked in the face. Dr. Heil attended Shugart. Now the police are trying to find the saloon in which Shugart says he was done up. As soon as possible he will be taken down on the levee to locate the saloon and then arrests may follow.

the divine lordship of Jesus Christ. Let me say to the young man, whom I love, you can't take the name of Christ in vain without injury to yourself. The man who thinks anything of himself cannot take the name of Christ in vain. Over in our town we are accused of not believing in a change of heart. This is a slander. There is no church that depends so much in the change of heart. Is a man saved before he conforms to the requirements of the gospel? No man will dare say he is. Poti said we should obey God rather than men. We are not saved by belief in what some may say in a creed. No man can come between you and the commandment of Christ's. (Heb. 5:9.) "He became the author of salvation to all those that obeyed him." He was not the author of salvation to those who lived an upright life, but to those who obey him. We are not saved by what we think or by adhering to a Creed by believing in his ordinances and in his divinity. Your faith wants to enter in Jesus Christ. The man who believes in Christ will the next moment ask, "how can I be saved?" Go to the gospel. The man who believes and is baptized is saved to that hour. All his sins are forgiven, "they are remembered against him no more forever." You have another chance. Men who are saved may commit other sins. Some people are horrified that a church member may sin but we must remember the weakness of human nature. Who can be saved? You can be saved. Have you sinned a long time? You can be saved. Don't spurn the gospel of Christ.

MRS. BLEED.

After Rev. Moore concluded his discourse he introduced Mrs. Reed of Lincoln, Nebraska, a lady who has visited the famine stricken districts of Kansas and Nebraska and who is soliciting aid for them. Mrs. Reed took the platform and said:

Through the influence of members of this church I am permitted to address you. I suppose some of you would like to know something of my work. I have been over western Kansas and Nebraska. I went into their homes to see the destitute. Some said go and tell the people how we are suffering. I told the legislature of Kansas of these destitute people and it promised help. I am thoroughly posted as to the sufferers. These people, like other communities, are good, bad and indifferent. The crops failed for several years. In western Kansas where I traveled on foot I came to a sod house. There were two children alone in the house; the elder was only seven years old. There was not a mouthful to eat in the house. The children said that mamma had gone to get something for them to eat. They were very hungry. Poor little pinched faces. At another place there were several children, the eldest a girl 16 years old and the smallest a baby. The father had gathered some bones and gone to sell them and buy some flour. They had nothing to eat. At another place the mother and two children were dead. They had died before help could reach them—starved to death. At another place there was nothing to eat; the stock had all been sacrificed; a new babe had just been born; the destitution was so pitiful the father's mind became unbalanced and he killed the wife and the children and then himself.

If you could see the faces of the fathers who come to the towns I have seen them. Their eyes and faces showed their anxiety over the destitution at their homes on the prairies, you would not hesitate to help these suffering people. Remember what Christ said; I was naked and ye clothed me, I was hungry and ye gave me to eat. A contribution was taken at the door.

FIRST BAPTIST CHURCH

The services were well attended in the morning when Rev. W. M. Gray preached. Mr. Gray used to live in Decatur and was a pupil of Prof. Gastman. He is a nephew of Dr. E. W. Moore and a brother of Mrs. S. D. May of this city. His wife was raised in Decatur and used to be a teacher in the public schools. Mr. Gray preached an able sermon which was greatly enjoyed by all who heard it. Mr. and Mrs. Gray will leave the city to morrow for Brewster, N. Y., where they will make their home in the future. Mr. Gray has accepted the pastorate of the Baptist church at Brewster.

At night Pastor John D. Jordan preached to a very large congregation on "One Lord, One Faith, One Baptism." The meeting was one of decided spiritual power. Two were baptized, three were received by letter and three made public profession of faith in Christ. The church will begin a series of protracted meetings next Sunday. For two weeks the meetings will be held at East Park Chapel of week nights. The pastor will be assisted by Dr. Steadman, of Champaign, Ill., for the first two weeks. Dr. Steadman is an able preacher, a consecrated worker, and a wise winner of souls.

SEALED BY DEATH,

Is the Mystery of the Suicide of
Mrs. H. C. Seitz.

SHE REVEALED HER NAME AT THE LAST

But Told Nothing of the Causes Leading
Up to Her Disappearance from Home
and Taking of the Fatal Dose—
Her Mother Interviewed.

St. Louis, March 12.—The identity of
the young woman who, under the
name of Lillian Lesser, took poison at
the California house, Kansas City, on
March 5, has been established by her
death.

A dispatch was received from Kan
sas City yesterday stating that five
minutes before she died Sunday night
she told those around her bedside that
her real name was Gertrude Seitz, and
that she was the daughter of Mrs. E.
Sestey, a nurse in the St. Louis Epis
copal Orphanage.

Investigation at this institution re
sulted in the corroboration of these
disclosures. Mrs. Sestey was seen and
told enough to clear all doubt as to
the girl's identity, although she could
give no good reason for her suicide.

According to the mother Gertrude,
who was a nurse with her at the home,
left the place about ten days ago.
The same night the mother received a
letter from her stating that she was
going away to rest, but not saying
where, and Mrs. Sestey had no knowledge
that she was in Kansas City until
informed of it by the reporter.

What there may be behind the girl's
disappearance is still to come out.

The intimation from Kansas City is
that she quarreled with a young man
before leaving St. Louis, and that this
trouble drove her out of the city, and
eventually to her death. In fact the
girl admitted this much on her sick
bed. The mother states in most positive
terms, however, that her daughter
knew no men and that such an idea is
false.

Gertrude Seitz was about 24 years
old, according to the statements of her
mother. Her former home was with
her parents in Bunker Hill, Ill. About
six years ago she met a young southerner,
Harry C. Seitz, and they were married.
He was a bookkeeper for some firm in
Birmingham, Ala., and they went there to live.

Two children were born to them, but both
died, and to add to their troubles Seitz
lost his position. His circumstances became so bad that
about two and a half years ago Mr.
Seitz sent Gertrude money enough to
come to Bunker Hill to tide matters over.
She parted with her husband on the
best of terms and kept up a correspondence
with him for several months. The last letter she received
from him stated that he expected to
go to Louisville, and then to Bunker
Hill. Since that time no word has ever
been heard of him, either by the wife
or the parents of Seitz.

He disappeared as completely as
though annihilated, and all the efforts
by advertisement and otherwise have
failed to find trace of him.

This is said to have worried Mrs.
Seitz greatly, and in addition her own
health began to break. She inherited
consumption from her father, and dread
of the disease has kept her in a constant
state of worry. It is these two things by which Mrs. Sestey
accounts for the suicide.

Shortly after the disappearance of
Seitz the Sesteys moved to St. Louis,
where they have since resided. Mrs.
Sestey has been working several
months now in the Orphans' home and
the daughter had been there a month
before she went away so suddenly.
Mr. Seitz is now very ill with con
sumption and unable to work.

When Mrs. Sestey was informed that
her daughter had attempted suicide
she expressed the greatest surprise.
The information that she was dead
was withheld from her for obvious
reasons.

"Oh, the silly child," she exclaimed.
"didn't she know that such a thing
would hurt me more than anything on
earth? How could she do it? She must
have worried over her fear of con
sumption. There is not a particle
of truth in the report that she had trouble
with any man. At least I never heard
of it if there was; but the girl was always
very reticent about her affairs.
She sometimes spoke of going to Kan
sas City. I remember she once asked
me how far it was. I told her 900
miles, but she said she thought that
she would go there, because she didn't
like St. Louis. I never dreamed
though, that she would do anything
like this."

Before the reporter left Mrs. Sestey
inquired anxiously as to her daughter's
condition. The question was
evidently asked, and she exclaimed:

"I'm afraid she will not live, for she
never would have told her real name
if she had not thought she was going
to die."

Mrs. Sestey spoke more wisely than
she knew when she uttered these
words, for it was not until the girl felt
death's clutch upon her that she gave
up her secret.

Nearly 200 non-union electrical
workers were put to work at New York
by the contractors Saturday.

The world's championship races this
year will be held in Cologne, Germany.

THE CORPORATION WINS.
A Suit Involving Sixty-Eight Thousand
Acres of Land Alleged to be
Mineral Lands.

WASHINGTON, March 12.—The secretary
of the interior yesterday decided a
case involving about 68,000 acres of
land located in the upper peninsula of
Michigan, near Lake Superior, and
valued at between \$10,000,000 and \$15,
000,000.

A grant of 200,000 acres of land was
made by the government in 1856 to the
state of Michigan for the benefit of
the Portage Lake & Lake Superior Ship
Canal Co., now the Walkeena Limited,
a corporation.

The grant was settled by patenting
to the company the amount called for
in the grant. Certain persons desired
to file a protest upon some of these
lands patented to the company and
their applications being refused because
patents were issued to the same lands.

A protest was received from Kan
sas City yesterday stating that five
minutes before she died Sunday night
she told those around her bedside that
her real name was Gertrude Seitz, and
that she was the daughter of Mrs. E.
Sestey, a nurse in the St. Louis Epis
copal Orphanage.

TUESDAY, MARCH 12, 1895.

One good thing the late congress did was to pass an anti-lottery act. It ought, however, to provide that it shall be unlawful for the people to take any more chances with the Democratic party. More people were caught in that game than all the lotteries in the world.

The Rev. Thomas Dixon, of New York, who undertook the task of turning New York upside down and who once in a sermon referred to ex-Union soldiers as loafers, has been forced to resign by the more conservative element in his congregation. He will start an independent church with a simple creed. He probably needs but little creed on the principal that a bushwhacker needs but little drill.

It may be all right, but we cannot strike a line of reasoning that does not lead to the conclusion that the strikes that have been ordered within the past few days and the apparent disposition of unions to force up prices because there is an indication of a little more work when spring opens, are bad things for labor because it will at once cause a great many people who contemplate building to abandon it. This fact alone means that thousands of men who might otherwise get employment will have to remain idle.

Torrens Land Registry Bill.
Chicago Journal: Representatives at Springfield will soon have a chance to correct one of the misdeeds of the last legislature by passing Senator Humphrey's bill for the adoption of the Torrens land registry system in Illinois in place of the cumbersome and costly system of title and abstract transfer now in vogue.

The bill, which has been made a special order for to-day, is identical with the one defeated by a narrow majority of seven in the House during the last session. It was drafted by a committee that spent months of patient work in perfecting it, and is heartily endorsed by the Chicago real estate board. The urgent necessity for this modern and business-like system of transferring land titles is indicated by the fact that the annual cost of abstracts of titles and their examination in Illinois is estimated at upward of \$10,000,000. Every year makes the abstracts larger, less secure and more expensive. It is only a matter of years and tame submission when this unnecessary expense and incubus on the real estate business must become intolerable.

The registry system, which is in universal use in Australia and other foreign countries, does away with all the antiquated machinery that handicaps us and provides for the transfer of land by the same sensible method now used to transfer stock or registered bonds. The title of every parcel of land will be entered by a public officer on a separate page of an official register with the name of its owner and with all lines and imprecisions plainly indicated. Each lot owner will be given a certificate that will be a duplicate of this registry entry, and when he wishes to transfer his land all he will have to do will be to bring his purchaser to the register's office, have a new certificate made out in the new name, pay a nomination fee and pocket the money. There will be no big fee for a lawyer's opinion on the abstract, and no tribute to pay to a title monopoly. The transaction can be consummated in an hour instead of having to wait a month for red tape.

The only sources from which any noteworthy opposition to this bill is likely to come are the abstract firms and a few lawyers whose business now consists chiefly in the examination of titles. But even the lawyers, as a body, are in favor of the measure, and the benefits that would accrue to the whole state are so apparent that there is every reason to hope the present intelligent body of legislators at Springfield will make this session famous by the passage of this long-desired reform.

WASHINGTON LETTER.

(From our Regular Correspondent)

WASHINGTON, D. C., March 11, 1895.
A decidedly sensational proposition was made and discussed at a Washington dinner party which was attended by ten gentlemen, among whom were several who rank as leaders in the Republican and Democratic parties in congress. The proposition came from a Democrat, and was in substance that the Republican house should as soon as it assembles, either in extra or regular session, adopt a resolution for the impeachment of Mr. Cleveland, because of the written and verbal contract he made contrary to law with that foreign syndicate for the sale of bonds. The source from which the information comes makes it impossible to use names. The proposer of the scheme stated very candidly that his

party would stand a much better chance in the campaign next year with Stevenson as president than it will with Cleveland, and said that if all the Republican and Populist senators would pledge themselves to vote for impeachment, he would guarantee a sufficient number of Democratic votes to make the necessary two thirds to impeach. No promises were made by the Republicans.

Representative Henderson, of Iowa, the ranking Republican member of the house committee on appropriations, completed and made public a day or two ago a digest of the appropriations made by the last congress and comparing them with those made by the four previous congresses. The totals were as follows: Forty-ninth Congress \$746,342,495.51
Fiftieth Congress \$17,063,837.90
Fifty-first Congress \$88,417,183.34
Fifty-second Congress 1,027,104,47.92
Fifty-third Congress \$90,388,691.04

It will be seen that the two last congresses, both Democratic, made the largest appropriations, and there should really be \$21,886,764 added to the total appropriations made by the last congress, as that is the amount that must be appropriated to pay contracts authorized, and Mr. Henderson estimates that insufficient appropriations for public printing, pensions, etc., will necessitate a deficiency appropriation of at least \$4,500,000 by the Fifty-fourth congress. The two last Democratic congresses were both billion dollar congresses, the first in the history of the country, although the Democrats made a national campaign by falsely calling the Fifty-first, or Reed congress, the "billion dollar congress."

Is Secretary Gresham a coward, or a—? This question is being asked by many who believe that Mr. Gresham is guilty of neglect of his sword duty in not notifying the Treasury department that Germany, France and other continental European countries are unjustly discriminating against American products, in order that the law which directs that 10 per cent shall be added to the duties on all goods coming to the United States in vessels flying the flag of any nation which shall discriminate against our products. The law is clear, notwithstanding the contrary claims set up by European diplomats. The Treasury department cannot impose the retaliatory duty until officially informed by the Department of State that the discrimination exists, and it seems that Secretary Gresham will not do that. It is said that he has intimated his fear of retaliating and that he favors accepting the thin excuses of the several European governments for shutting out American products. It is not surprising that "Oh, for one day of Blaine at the head of the State department," should be so frequently heard these days.

AFFAIRS IN COLOMBIA.

Inexcusable Punishment to be Dealt to Disturbers of the Peace.

PANAMA, March 12.—The Star and Herald says Gov. Arango Sunday issued a proclamation stating that severe measures would be adopted by the authorities to prevent further bloodshed in the department of Panama. The proclamation also says the governor has in his possession plans of the enemies of the republic, and that inexcusable punishment will be dealt out to such persons as may hereafter attempt to create disturbances.

A decree has been published declaring the department in a state of siege. More troops have been dispatched to Bocas Del Toro.

Advices from Bogota say orders have been issued by the government raising the rank of Lieut. Lopez, who is said to have killed the outlaw, Garza, at Bocas Del Toro, and who was himself killed by the rebels, to that of lieutenant-colonel, and that his funeral will be conducted with the military honors due that rank.

It is expected that the governments of Mexico and the United States will pay the rewards offered by those countries for the capture of Garza, to the mother of Lieut. Lopez, who was dependent for her support upon her son.

Delay to heed the message increases the damage to be repaired. Dr. Wheeler's Nerve Vitalizer repairs, strengthens and restores lost nerve force. It is so made that it cannot help fail to help any and all nerve disease—and nineteen-tenths of diseases are or are attended by nerve troubles. Dr. E. Greenway, East Palestine, Ohio, says that "Dr. Wheeler's Nerve Vitalizer has been remarkably effective in cases which have come under his observation. It can be relied upon to be always effective as represented to restore lost or weakened nerve force and bring back full healthful vigor." Sold by C. H. Dawson, Druggist.

TWO LIVES SAVED.

Mr. Phoebe Thomas, of Junction City, Ill., was told by her doctors that she had Consumption and that there was no hope for her, but two bottles Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Theo. Eggers, 120 Florida St., San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else, then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at King & Hubbard's Drug Store. Regular size 50c and \$1.00.

THREE DAYS OF DOOM.

And Then Death Follows the Strange Malady Raging in the Mud River Country.

ASHLAND, Ky., March 12.—Latest reports from Floyd county, brought by local traveling salesmen just returned, are not at all encouraging for the early suppression of the strange malady that is raging in the Mud River country. It has become so violent that even physicians of the surrounding towns refuse to visit the victims. The death toll has exceeded fifty already, and the decease is on the increase. Instead of being smallpox, it resembles cholera, except that it chokes the victim to death, beginning in the stomach and rising to the throat. In almost every case it has been fatal, the victims seldom living more than three days.

FOR McKinley for President.

LOS ANGELES, Cal., March 12.—Secretary Taylor, of Ohio, who is in the city, has been given to understand that southern California is for McKinley in preference to anyone else for president.

MISS LENTER ENGAGED.

The Chicago Herald to wed a well-known English Politician.

The announcement of the engagement of Miss Mary Leiter, eldest daughter of L. Z. Leiter, of Chicago, to George N. Curzon, M. P., one of the most prominent figures in English political life, has created great interest. Those familiar with the prospects of the groom-elect presage for the union a future of great brilliancy, Mr. Curzon being one of the rising men in the British house of commons. Though a young man, he has already held office.

As for the prospective bride, Miss Mary Victoria Leiter, it is said that in the way of education and culture she will not have to take lessons of her intended. This captivating young

MISS MARY VICTORIA LELTER.

heiress has spent most of her life in travel and study abroad and will be entirely competent to follow his lordship in my mental flights he may feel disposed to indulge.

In the way of money, too, the Chicago girl will probably not be found wanting, and if the blushing bride is to be endowed at the altar with enough titles to fill book and more ancestors than pounds sterling, yet the father-in-law, whose fortune was made in trade, is not the man to accept a good thing without paying for it. The rent roll of a large number of buildings in Chicago will come in quite handy in paying the ordinary bills of the hereditary legislator and his American wife and will not be unwelcome when it comes to renovating the ancestral manors and cutting the parlance grass. Mr. Leiter is a multi-millionaire. The early profits of the dry goods business discreetly invested in real estate have sent the number of millions up to a figure which is largely speculative.

JOHN STUART BLACKIE.

He Was One of the Few Great Scholars of the Present Generation.

John Stuart Blackie, who died recently at Edinburgh, Scotland, was born in Glasgow in July, 1809. His father was a banker of Aberdeen, and young Blackie received his education at that place and Edinburgh. He was an ardent student in his youth of German, Italian and classical philology. In 1831 he translated metrical Goethe's "Faust." He studied law and was admitted to practice in Scotland in the year of his translation of "Faust." Seven years later Prof. Blackie was appointed to the chair of Latin literature in Marischal college, Aberdeen. He remained at this post for nearly twelve years. As a lecturer he was recognized as a man of rare ability. His translations and reviews were widely read and admired.

By his efforts Prof. Blackie succeeded in raising \$60,000 for the endowment of a chair of the Celtic language in the university of Edinburgh. For many years he was the professor of Greek at Edinburgh, resigning the position in 1862. After his resignation he published many translations and reviews and lectures at the universities in behalf of the modern Greeks. Prof. Blackie's articles in the Scottish Review and the Nineteenth Century Magazine have been widely read.

Two years ago Prof. and Mrs. Blackie celebrated their golden wedding. Mrs.

JOHN STUART BLACKIE.

Blackie was the daughter of James Wyld, of Glastonbury.

Until shortly before his death Prof. Blackie was a familiar figure on the streets of Edinburgh. His hair was white, but his form was erect and his bearing vigorous, and there was but little to show that he had lived through the greater part of a century.

Two masked men held up a train near Antelope, Cal., but were driven off by the firemen and engineer.

WAR ON THE BLACKS

Follows the killing of the betrayer of His Daughter by Marshal Clark.

UNIONVILLE, Mo., March 12.—A war on the negro population of this place has resulted from the shooting and killing, Saturday night, of Al Todd, colored, by City Marshal William Clark, whose daughter was found Monday last with Todd in a negro dive at Ottumwa, Ia. When Clark, who alleges self-defense, gave himself up, he was immediately released on a five dollar bond. Almost all Saturday night crowds of determined men patrolled the streets, and the colored population kept out of the way. Of late it has been known that different white girls of the city have been intimate with the negroes, but conclusive evidence was not secured until Todd was caught. The shooting diverted attention and prevented summary punishment being meted out to others, most of whom have now left town. A federation has been formed to get rid of all the negroes.

ALLEGED CONSPIRACY

To Rob a Train on the Wabash—The Story Doubtful.

TAYLORVILLE, Ill., March 12.—Dan Sherwood claimed to Chief-of-Police W. R. Elsroth that he had been asked to join a crowd of four men in robbing the Wabash midnight express. He was told to join and learn the names of the men. Sherwood informed Elsroth later that he had joined and claimed that the men in the crowd were Warren Logan, formerly of this city, but now at work in the Wabash switch yards at Bloomington, Ill.; Sydney Watts, David McCaskill and William Sanders, all of this place.

Chief of Police Elsroth caught Sanders and McCaskill and alleges they finally confessed and said they would turn state's evidence against the others.

Many residents of this section who know the men refuse to believe that they were in any such conspiracy.

AN IMPORTANT DECISION

Involving an Income from Royalties of Three Hundred Thousand a Year.

PITTSBURGH, Pa., March 12.—Judge Buffington filed an opinion in the United States circuit court yesterday in the case of Henry Roberts, George T. Oliver and Andrew Day, against the Pittsburgh Wire Co., sustaining the claim of Roberts as the inventor of the inclined floor and guides now used in many rod mills. The decision secures to the plaintiffs about \$300,000 a year in royalties, as well as heavy penalties from concerns who have been using the device without license.

UNJUST INSINUATION.

ED. REPUBLICAN: "Give the devil his dues" is an old saying, but in many cases we find it cannot be done. As for instance the author of the article appearing in Sunday morning's *Herald-Despatch* relative to our city marshal will never receive his dues until gravity calls him to "a land that is warmer than this." Our city will be the gainer, in the loss of a character like him. Dr. Jekyl, like he poses in his article to the public and from which he hopes you will judge him, as a man of character; but say, my dear reader, did you ever see him when he was playing the part of Mr. Hyde? I am a Republican and will lend every honest effort to the success of the party, but when I read such an article as that and know it is false, I think it my duty to defend the man maliciously wronged, no matter what his politics. I have intimately known Marshal Lehman for 23 years. He is a man of exceptional character. He doesn't drink, chew or smoke and never played a game of cards. It looks incredible that a man of such habits should become so intimate with, and under such perfect control of, the gamblers. I defy the author of the article to come out in plain words, and make a direct charge of what he has intimated and would have the public believe. Mr. Lehman is not a politician; he is a representative citizen, a good business man. I wish we had more such men in office, and fewer liars who come out in public print.

LIFE INSURANCE.

Chicago has one resident who estimates his life at \$500,000, and Boston has one.

There are six men in this country each of whom holds life insurance policies for half a million dollars or more.

SENATOR JOHN SUMMERS, of Ohio, probably carries the largest insurance of any man in the public service, his policies amounting to \$300,000.

New York City has a larger number of persons whose lives are insured for \$100,000 or over than any other city, the total being 114, but the total for New York state is only 106, or thirty less than for Pennsylvania.

In 1892 the policies held in the United States amounted to \$4,473,000,000. In Great Britain they amounted to \$1,18,000,000 and in France to \$2,715,000,000, making the enormous total in the three countries of \$10,260,000,000.

The two men carrying the largest insurance in this country reside in Philadelphia, the two fortunate men being Mr. John Wanamaker, with policies aggregating \$1,500,000, and Mr. Hamilton Disston, with policies amounting to \$800,000.

There are 71 men in Philadelphia with an insurance of \$100,000 and less than \$200,000 on their lives; 11 men with \$200,000 and less than \$250,000 insurance, and 12 men with \$250,000 and less than \$300,000 insurance. Two have an insurance exceeding the last-mentioned sum.

MASSACHUSETTS ranks third among the states where life insurance policies of \$200,000 or over are held, there being 80 in that state. Ohio ranks fourth, with 56; Michigan sixth, with 46; Colorado equals California in this respect, each state having 23 residents for \$100,000 or more.

TAKING the country through, there are found to be 333 men and women who have an insurance of \$100,000 or over on their lives. Pennsylvania leads in this respect, having 195 persons with a life insurance policy of \$100,000 or over. Of these favored individuals, 96 reside in Philadelphia, 53 in Pittsburgh, and the remaining 43 live elsewhere in the state.

In every land and clime Dr. Price's Baking Powder leads the list. It keeps everywhere.

The Missouri Odd Fellows will have a state meeting at Nevada in May.

HAYWARD TO HANG

For Complicity in the Murder of Catherine Ging.

HE RECEIVED THE SENTENCE CALMLY

And Sat Down Without the Slightest Show of Feeling—The Day of Execution to be Fixed by the Governor.

MISNEAPOLIS, Minn., March 12.—Harry T. Hayward, convicted of the murder of Catherine Ging, has three months to live. Sentence was passed on him by Judge Smith yesterday morning, after a motion for an arrest of sentence by Mr. Erwin had been denied.

Hayward came into the court in the leisurely, calm manner that has characterized his demeanor all through the trial, and surveyed the crowd coldly while the handcuffs were being removed. Judge Smith agreed to examine the grounds urged for a new trial on March 28, and then passed sentence. He said he had no doubt whatever that the verdict was a just and righteous one, and while he did not believe in capital punishment, it was his painful duty to pass sentence in accordance with the law. "The sentence of this court" he continued, "is that you be taken to the Hennepin county jail and there confined until, after a period of three months, a time fixed by the governor of this state, you be taken to the place of execution and hanged by the neck until you are dead."

Harry listened calmly and sat down without the slightest show of feeling.

THE BEHRING SEA DIFFICULTY.

Another Acute Stage in the Complicated Situation Presented.

OTTAWA, Ont., March 12.—Another acute stage in the Behring sea difficulty is engaging the attention of the British, United States and Canadian governments. Since the refusal of the American congress to vote the compensation agreed upon, the Canadian government has been urging the home authorities that the indisposition of the United States to carry out the understanding justifies the refusal of Great Britain to assent to the enforcement of the restrictions upon sealing during 1895. So far no answer has been received to these representations.

About this time last year a similar difficulty arose when, through the delay of the great powers interested, it began to look as though the award would not be enforced in the approaching season. At that time Senator Morgan, chairman of the senate committee on foreign affairs, made a bold declaration that in his opinion no damages would ever be paid by the United States. Though the government of the republic is still declaring its desire that the lump sum of \$425,000 agreed upon should be paid over, the action of congress is a plain intimation that Senator Morgan's views hold good with those who hold the strings of the national purse.

Whether Canada is to be compelled to live up to her portion of the award while the United States refuses to be bound by the part which applies to it, is the question which is bothering the diplomats of the nations concerned.

ABREAST OF CAPE HATTERAS.

News from the Presidential Party of Duck Shooters.

CAPE HENRY, Va., March 12.—The Violet, with the presidential party aboard, anchored offshore of Cape Hatteras yesterday afternoon. On account of the bad weather since his departure, the president has had only one day's hunting as yet, and that was last Friday, when he killed sixteen brace and one large goose. Saturday was too stormy for sport, and the party remained aboard all day. The president viewed the eclipse from the deck of the Violet Sunday night. The party spent yesterday in a "blind" on the reef, shooting, and returned aboard the Violet in the evening. The president looks to be in excellent health.

FOR AMERICA.

Annual Convention of the American Protective Association of Michigan.

SAGINAW, Mich., March 12.—Delegates to the annual convention of the American Protective association, which begins in this city to-day, began to arrive Sunday evening and last night there were about 100 present, with indications that the number would be doubled. A good representation is expected from all parts of the state.

The executive board and several committees met yesterday afternoon in secret session to discuss the work of the convention. Prof. Sims and his story of the association's falling to pieces does not seem to worry the delegates much.

TRAIN WRECKER ARRESTED.

Admits the Fact and Says He Had No Confederates.

VALLPARAISO, Ind., March 12.—Henry Heick, aged 22, of Chicago, was arrested by Special Detective J. C. Morton, of the Nickel Plate, for the attempted wrecking of the fast train on the Nickel Plate Saturday night. Heick was brought to this city yesterday and last night admitted that he did it, claiming that he had no assistance, also that he was drunk. The officers do not believe his story, as other footprints were found.

IT WAS A DAUGHTER.

DARMSTADT, March 12.—The grand duchess of Hesse gave birth to a daughter last evening. She is doing well. The grand duchess is the second daughter of the duke of Saxe-Coburg-Gotha, formerly known as the duke of Edinburgh. She was married on April 19 last.

MONEY AND TROOPS

For the Suppression of the Insurrection in Cuba.

MADRID, March 12.—A credit of \$100,000 to be used in suppressing the Cuban insurrection has been cabled to Capt.-Gen. Calleja, in Havana.

The preparations to ship more troops to Cuba are pressed forward with great rapidity. In addition to the three transports which have already sailed half a dozen or more troop ships have been made ready to leave Cadiz and Santander as soon as the infantry shall be got aboard. The total number now under orders for the Cuban campaign is 12,000.

FOOD FOR THE HUNGRY.

Boston's Contribution Being Distributed Among the Poor of St. Johns.

ST. JOHNS, N. F., March 12.—The goods for the relief of the suffering poor of St. Johns, which were brought here from Boston, were partially distributed yesterday. The number of destitute families in St. Johns is increasing daily. A dispatch from a small settlement on the southwest coast, signed by the parish priest, was received here yesterday, stating that forty families were starving there and there was nothing to give them. There are about 2,800 families in St. Johns and its suburbs in distress.

Peruvian Insurgents Victorious.

BUENOS AIRES, March 12.—A dispatch from Lima, Peru, says that the insurgents defeated the Peruvian troops in a battle near Cabanis. Three hundred government soldiers were killed.

Smallpox at Hot Springs.

HOOT SPRINGS, Ark., March 12.—The official health bulletin yesterday showed one death and three new cases of smallpox. Up to date, there have been ninety-two cases and twenty-one deaths.

THE FALL OF TENCHANTAI

Confirmed by Marshal Ozama—A Line of Retreat Strews with Dead Men.

LONDON, March 12.—A dispatch to the Central News from Tokio says that under date of March 11 Marshal Ozama reported that the first division of the Japanese army, leaving one regiment to garrison the captured town of Ying-Kao, crossed the Liao river on March 9 and advanced on Tenchantai, acting in concert with the first army, which was proceeding along the left bank of the river. The third division of the army advanced along the left bank and crossed the river above Tenchantai.

The enemy retreated in the direction of Tsong Taitz, and was actively pursued.

Eventually the Japanese forces succeeded in surrounding the Chinese troops. The Chinese sustained severe losses, leaving over 1,000 of their men dead along the line of their retreat. This number, however, does not represent their total loss.

The town of Tenchantai was burned by the enemy. On February 24 there were 600 wounded Chinese soldiers in the hospital at Yankao, receiving the attention of the foreign Red Cross society.

CHURCH AND STATE

Separated by the Constitution of Guatemala.

WASHINGTON, March 12.—The Guatemalan minister, M. Lazo Arria, was asked to-day as to the report that Guatemala might send a diplomatic representative to Rome. He replied that he had no knowledge concerning the matter, and that he did not believe Guatemala would take such action.

He added that the constitution of Guatemala is very similar to that of the United States, and that it provides distinctly for the entire separation of church and state.

TO COEVE VENEZUELA.

BERLIN, March 12.—It is reported that the government is sending two war ships to La Guaya to enforce the payment of the 7 per cent. unpaid guarantee on the construction of the Central Venezuelan railroad, which was built by Germans.

BRUSSELS, March 12.—The Belgian government will join France in her protest against the action of Venezuela in expelling the French and Belgian ministers.

THE TAYLOR BROS. TROUBLE

Dispute of Thirteen Years About a Farm Settled at Last.

To-day State Attorney Miller went to Homer in Champaign county to give John Taylor a deed for a farm of 120 acres in consideration of \$7,500. An interesting story is connected with this transaction. Two brothers were concerned in it, John Taylor, of Homer, and William Taylor, of Harrisstown, this county. In 1881 John Taylor had to give up a tenant farm near Homer, and he entered into negotiations with the heirs of the Ayers' estate, Jacksonville, for the purchase of a farm of 120 acres near Homer. The farm was offered for sale at \$30 per acre at that time, \$1,000 down, the balance, \$2,500, in six annual payments. John did not have enough money to comply with the conditions. He went to his brother William, at Harrisstown, to get his aid in purchasing the land. John had \$600 in cash, and William put up \$400, and the farm was bought; but John was not sure that he could pay off the notes, and it was arranged that William should make the purchase in his name, taking the bond for the debt, and give the notes. To secure the \$600 paid on the farm by John, William gave him his note. The debt dragged along for six years, John occupying the farm and paying William interest.
